Administrative History:
The University of Toronto Scarborough Photographic Services is a department within the University of Toronto Scarborough Campus. The campus was established in 1964 with construction beginning that same year.

The Photographic Services department was formerly known as the Photography and Graphics department. In 1998, the department was housed in Room AC286 in UTSC’s Academic Resource Centre (ARC), along with UTSC’s Library. As of 2013, the services of the department fall UTSC’s Communications & Public Affairs department.

The department has been staffed by two staff photographers over 5 decades, first David Harford and then Ken Jones. David Harford worked for UTSC from the 1970s until 1994. Ken Jones joined UTSC as the University’s Staff Photographer in 1994. The UTSC Photographic Services mandate is to "complete professional-quality custom photographic and imaging services to meet the teaching, research, publication and promotional needs of the UTSC campus" which is reflected in the records within the collection.

Scope and content:
The UTSC Photographic Services collection covers the years of approximately 1964 and 1966 to 2008. The collection represents an invaluable visual history of the University of Toronto Scarborough campus and is made up almost entirely of photographic materials – negatives, contact sheets, slides, and prints.

Photographs in the collection from the 1970s to 1994 are attributed to David Harford and photographs from 1994 onwards are attributed to Ken Jones. Photographs cover a broad range of subjects, such as the buildings and grounds of UTSC, campus events, faculty, staff, students, and much more.

Material is arranged into the following series:
• Series A: Slides
• Series B: Negatives and Contact Sheets
• Series C: Photographic Prints

See Notes – Arrangement for further details and explanations on the arrangement of the content within the collection.

Custodial history:
The records contained within the collection were transferred to UTSC Library when Ken Jones moved out of his former office in AC286. Prior to this transfer, the records were maintained on UTSC campus by Mr. Jones from 1994 until 2012. Mr. Jones’s predecessor, David Harford, maintained the records prior to 1994.

Notes:

Source of title proper
Title based on contents of the fonds.

Physical condition
The materials within the collection are in good condition. Some photographs are bent.

Arrangement
Original order, as established by David Harford and Ken Jones, is maintained with the exception of a few miscellaneous folders and slide cases for which original order had been lost. Arrangement was imposed on items for which original order was lost.

Series arrangement reflects the original order of the collection, as organized by Ken Jones in his AC286 office:

Series A: Slides
• Series A: Slides contains all of the slides that were housed in binders in the office of Ken Jones. Binders were arranged by subject and, with the exception of a few, labelled numerically from 1-28.
• Note that some slides contain an abbreviated subject label; see below for the “subject key”.

Slides Subject Key
  o ADM = Administration
  o AST = Astronomy
  o BIO = Biology
  o CH = Chemistry
  o CON = Construction
  o COUN = Counselling
  o CUL = Cultural/Clubs, etc.
  o DRA = Drama
  o EXT = Exterior Architecture
  o FA = Fine Art
  o FR = Front Entrance
  o FT = Field Trips
  o G = Gallery
  o GEO = Geology and Earth Sciences
  o GRAD = Graduation (convocation)
• Covers of the original binders have been photocopied and stored in a file with the corresponding photographs.

Series B: Negatives and Contact Sheets
• Series B: Negatives and Contact Sheets contains all of the negatives and contact sheets that were housed in binders in the office of Ken Jones. The binders were arranged by year and usually labelled with the year and the sequential number of each negative sheet and corresponding contact sheet, i.e. Binder 1968 (now file 2012-001B-2:2) contains negatives 181-225.
• Legacy databases called “David’s database” and “Photomatica” document the subjects associated with each contact sheet. Contact the archivist to access an emulation of these databases and search through them. All subject keywords recorded on the photographs are also transcribed in each file’s “Media/Content Notes” field.
• Covers of the original binders have been photocopied and stored in a file with the corresponding photographs.

Series C: Photographic Prints
• Series C: Photographic Prints contains all of photograph prints that were housed in paper folders and filing cabinets in the office of Ken Jones. The folders were arranged by subject. For the most part, folders are labelled by subject but the folders and some photographs were out of order when the records were transferred to UTSC Library. In some cases, folders contain photos that do not reflect the subject of the original folder label.

Miscellaneous records that were not arranged in any way or had lost their place in the original order of the collection were arranged by the archivist and distributed appropriately by medium into the three series.

It should be noted that many of the colour photographs found in the collection may be surrogate prints of digital photographs or otherwise prints of negatives or slides within the collection.

Additional subject/keyword access to records is given through the transcription of notations on photographs, recorded in Media/Contents notes of the UTSC Photographic Services collection box list.
Language
English.

Restrictions on access
Access to the fonds is open and available to researchers at the archivist’s discretion. All records are subject to the Access to Information and Privacy Act.

Terms governing use and reproduction / publication
All photographs are copyright of the University of Toronto. It is the responsibility of the researcher to obtain permission to publish any part of the collection by contacting UTSC Library.

Finding aids
A box list for each series is available.

Researchers may also find a digital timeline, produced by UTSC’s Advancement Department, of use in accessing materials in the collection: http://www.utsc.utoronto.ca/~advancement/about/timeline.html
